

## **NHDOT Natural Resources Agency Coordination Meeting**

A meeting has been scheduled for **Wednesday, November 15, 2006** in the John O. Morton Building on Hazen Drive in Concord, NH. It will begin at **9:00 am** in the Highway Design Conference Room (Rm 211). All visitors must check in with the receptionist.

The following projects/items will be discussed, not necessarily in this order:

### **Finalization of October 18, 2006 Meeting Minutes**

**Keene, 13710** – This project involves the replacement and widening of the bridge that carries NH Route 12A (Court Street) over the Ashuelot River in Keene. A temporary bridge will be installed upstream to maintain traffic during construction. There will be involvement with lands protected by the Conservation Land Stewardship Program. A review of design and impacts will be discussed.

**Bow-Concord, T-A000(018), 13742** – This project involves planning for the widening of I-93, beginning at I-89 and continuing to a location between Exit 15 or Exit 16. The project is currently in the planning phase and a project update will be presented. It is hoped that a field review of the Garvin's Falls area can be scheduled at this meeting, so please bring your calendars.

**Conway, HDPPE-9117(1), 11339A** – This project involves the construction of a bypass around Conway Village and North Conway. A review of the proposed design and environmental impacts will be presented prior to the Department's application for a new DES Wetlands permit.

**Acworth, 14540T** – This project involves the replacement of the bridge that carries NH Route 123A over Bowers Brook( Br.# 113/064). The bridge was damaged during the October 2005 flooding. A preliminary review of design alternatives and constraints will be presented.

**Alstead, X-A000(479), 14541K** – This project involves the rehabilitation or replacement of the rigid-frame bridge that carries NH Routes 123 and 12A over Cold River. A review of design and impacts will be presented. The construction of this project may involved Land and Water Conservation Fund resources.

**Alstead, X-A000(425), 14540M** – This project involves the upgrade of a flood-damaged portion of NH Route 123 between Mill Hollow and downtown Alstead. A review of design and impacts will be presented.

*OTHER PROJECTS MAY BE PRESENTED*
